EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Jay Franklin on June 10, 2009. The application has been amended as follows:

In the claims:

In claim 20, lines 6-7, "a means (60) ... the blade (10) being" has been changed to -- the blade (10) being configured to be raised by a raising device and to be connected to a feed circuit of the vehicle, the blade (10) being--; line 8, "can" has been changed to -- being configured to --; lines 15-16, "each profile holding fixture" has been changed to -- said profile holding fixtures--; lines 17-18, "with one of an elastic ...to urge one of" has been changed to --with at least one elastic restoring return (25) to urge a respective one of--; and line 20, " locally the elastic" has been changed to --locally an elastic --.

In claim 21, lines 3-4, "the one of an elastic restoring return (25) or the series of separate restoring returns (52)" has been changed to -- the at least one of an elastic restoring return (25)--.

In claim 26, lines 2-3, "the conductors (19,20) are" has been changed to -- each of the conductors (19,20) is --.

In claim 39, lines 6-7, "a means (60) ... the blade (10) being" has been changed to -- the blade (10) being configured to be raised by a raising device and to be connected to a feed circuit of the vehicle, the blade (10) being--; line 9, "can" has been changed to -- being configured to --; line 15, "each profile holding fixture" has been changed to -- said profile holding fixtures--; lines 17-19, " one of elastic ... localized separate restoring devices" has been changed to -- at least one elastic compressible device --; and line 21, " compressible means" has been changed to -- compressible device--.

In the specification:

In the amendments to the specification, filed February 10, 2009, the word "and" has been inserted at the end of paragraph [031]; the entire underlined part of paragraph [032] has been deleted; and the entire underlined part of paragraph [072] has been deleted.

In the drawings:

The replacement sheets of drawings filed on February 10, 2009 are not approved for entry. On the other hand, the previous objections to the drawings, as set forth in the Office action mailed November 16, 2008, have been withdrawn due to the changes in wordings made in the claims as set forth above.

3. As discussed with Mr. Franklin on June 10, 2009, the above examiner's amendments would resolve pending problems of the instant claims in relation to the means expressions and the not-shown claimed features, and the examiner's

amendments would also correct other minor informalities and clarify the instant claimed subject matters. In response to the examiner's proposal, Mr. Franklin accepted and authorized the above examiner's amendments.
